Reading Team Organises Biggest Ever Green Conference

Brighton & Hove, March 11th – 14th Guest speakers include Bob Crow, Howard Marks, Peter Tatchell

Local Reading team plays host to hundreds of Green Party delegates at Hove town hall to fire the starting gun on what the Greens expect to be their most successful election race ever.

Green Euro-MP candidate and Reading Green Party Coordinator Miriam Kennet organised the four day national conference with the Reading Green Party.

"We've been working very hard to bring the conference to Brighton," Miriam Kennet said, "and we're confident that it will mark the beginning of the most successful election we've ever seen."

Leading Greens expect the party to win six seats in the European Parliament, as well as a 20% increase in local representation after the polls close on June 10. This, after new research shows Green policies more popular overall than either Labour or Tory.

The conference will also see the party officially launch its new **Real Progress** theme, which will be previewed to the media on Monday 8 March.
